

## How to activate Self-Managed Remote Access for ExpertPath

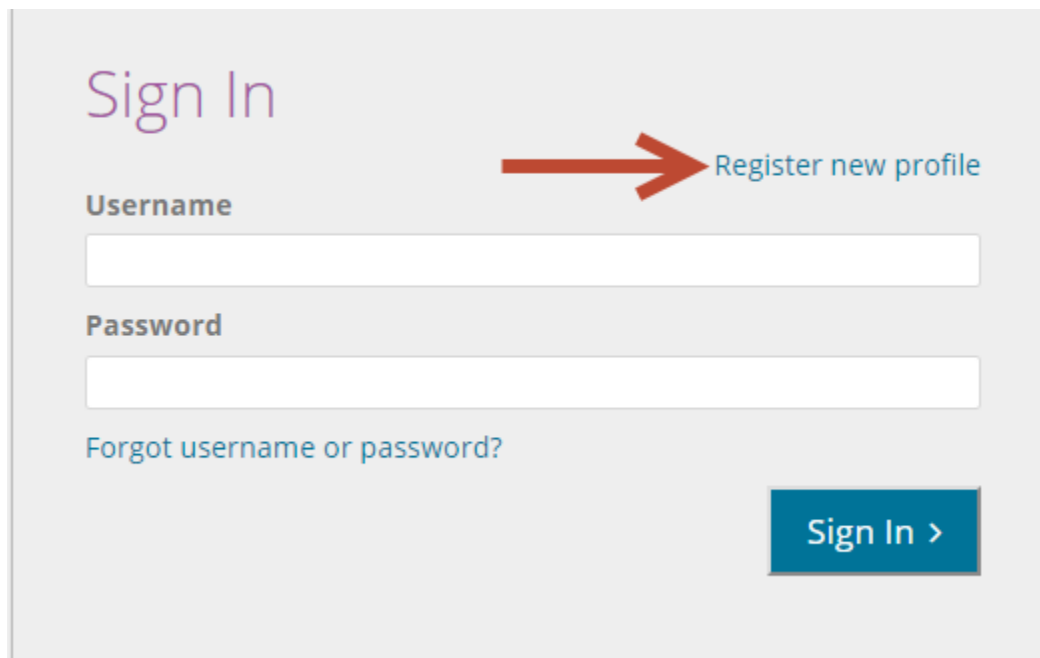

1. While you are on your institution's network, go to <https://app.expertpath.com/>
2. Click the wheel icon on the top right corner of the main screen:

3. Click "Sign In":

4. Click the "Register new profile" link:

5. Create an account using your work email address:

## Profile

[Sign into profile](#)

\* = Required.

**First Name \***

**Family Name \***

**Username**

**Email Address \***

**Password \*** 

**Confirm Password \*** 

[> Additional profile details](#)

---

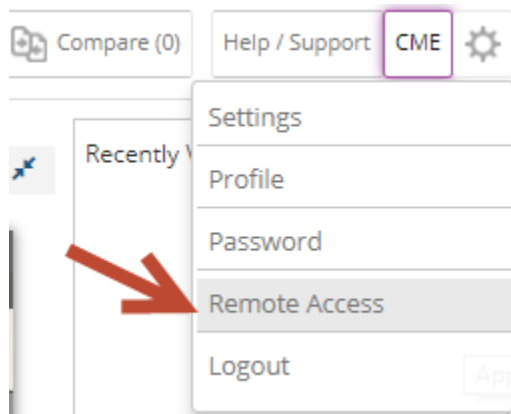

I want to receive marketing emails about my interests.

I have read and understood the [Registered User Agreement](#) and agree to be bound by all of its terms. \*

By creating an account you agree with the [Terms and Conditions](#) and [Privacy Policy](#).

[Submit >](#)

6. After creating a profile, log in to ExpertPath. Click the wheel icon on top right corner again and select “Remote Access”.

7. The “Apply for Remote access” screen will appear.

## Apply for remote access

If your institution has Remote Access enabled, this feature will allow you to access this application even when you are not on your institution’s network.

To begin, please input your institutional email address below. Remote Access is not compatible with a Yahoo, Gmail, or other personal email account. If you do not have an email address associated with your institution, please contact your institution’s administrator to obtain remote access.

**Email Address**

[Submit >](#)

8. Enter your institutional email address which is the same as what you used when you registered a new profile and click “Submit”.

9. A confirmation screen will be displayed, and an email sent to your institutional email address.

10. Open the confirmation email and click the link to activate remote access.

After completing these steps, remote access will be enabled.
